This week in Year 5...

In English, the children will begin to explore different genres of stories in preparation for our first book of the year: Robot Girl. The children will discuss the different features of a sci-fi story and gain an understanding of what makes science-fiction a unique genre.

In Maths, the children have been looking at the relationship between 10s, 100s and 1,000s, and how to multiply or divide numbers by a factor / power of ten. Pupils have been using place value charts and place holders to gain a stronger understanding of adding and subtracting sets of numbers with three or more digits.

In science, children have been exploring mixtures and substances that make up a mixture. Classes experimented with solid substances such as flour, salt, sugar, paprika, herbs and spices, sand, and liquids (water) to create different mixtures that have different features, such as colour, smell, and texture.

In RE, pupils have been discussing the importance of setting clear boundaries when participating in lessons involving a variety of religions and cultures. Children have agreed that agreeing to disagree on certain views is a positive thing, and to accept someone else's point of view is not a sign of weakness.

Next week's book...

5 Curie are reading Harry Potter and the Philosopher's Stone

5 Mandela are reading There's a Boy in the Girl's Bathroom

5 Zephaniah are reading The Wolves of Willoughby Chase

Key Messages

Please ensure children are reading **every day** and are completing and handing in homework by **Wednesday**!

Please ensure children come to school in **FULL school uniform** with **FULL PE kit** to change into on PE days.
