This week in Year 5...

In English this week the children have discussed whether or not robots deserve to have the right to an education and the right to vote in society. We discussed the role of a robot in the future and how this might change based on artificial intelligence.

In Maths, the children have been looking at numbers up to one million. Pupils have been comparing and ordering numbers in powers / multiples of ten using a number line.

In Science, children have been using different techniques to separate mixtures. Pupils used sieving and magnets to separate, and discussed the use of suction as another use of separation. We discussed the importance of mixture separation in different jobs such as waste management.

In History, the children looked at sources from the Viking era and made inferences on what that tells us about Vikings. Pupils discussed Viking stereotypes and how different groups of Vikings acted very differently - some raided and pillaged, whilst others helped other communities grow and advance.

Next week's book...

5 Curie are reading Harry Potter and the Philosopher's Stone

5 Mandela are reading There's a Boy in the Girl's Bathroom

5 Zephaniah are reading The Wolves of Willoughby Chase

Key Messages

Please ensure children are reading **every day** and are completing and handing in homework by **Wednesday**!

Please ensure children come to school in **FULL school uniform** with **FULL PE kit** to change into on PE days.
