This week in Year 3...

This week, the children completed assessments focusing on their **GPS, Spelling, English Reading and Maths** skills. They worked hard to answer the questions using their prior knowledge and understanding. These assessments are a valuable way for teachers to identify any gaps in learning and provide appropriate support to help all children make progress throughout Year 3.

In **Art**, the children carefully observed seeds and bulbs, focusing on the details of each organic object. They sketched their chosen object and used shading and mark-making techniques to show texture, tone and detail.

In **Science**, the children learned to recognise the main bones in the human body. They also explored the differences between **endoskeletons** and **exoskeletons**, developing their understanding of how skeletons provide support and protection.

In **RSE/PSHE**, the children learned how to recognise how others might be feeling by looking for different clues. They explored **facial cues** and **body language** to help them understand and identify how someone may be feeling.

Next week's book...

Key Messages

- Children are able to bring in their own healthy snacks for break time. (No nuts)
- Please ensure all toys are kept at home and are not brought into school.
- Please label clothing, including PE kits, with your child's name to help prevent items going missing. Thank you.
