This week in Year 1...

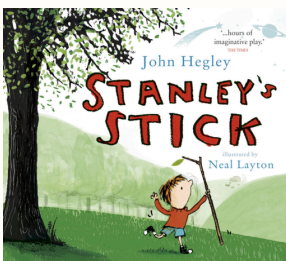

This week, in maths the children have been developing their understanding of numbers and counting. They have practised recognising numerals and matching them to number words. They have also been learning to count on from a given number and have used number lines to support their counting and develop their confidence with number sequences.

In English, the children have been developing their speaking, listening and writing skills through a range of activities. They have composed lists and shared their ideas to create their own dragon menus. The children have also practised speaking in full sentences to express their feelings and have developed their descriptive writing skills by using adjectives to describe settings.

In Science, the children have been learning how trees change throughout the four seasons. They visited Stockley Park to observe the trees and identify how they look during the current season. The children carefully observed the leaves, discussed what they could see and used their observations to predict how the trees might change during the other seasons. They also practised naming the four seasons in order and asking simple questions about their observations.

Next week's book...

Stanley Stick

Key Messages

Reminder:

- **Please read with your child for at least 15 minutes.**
- **Library Books:** If your child has not yet returned their library book, please ensure that library books are returned to school as soon as possible. Children are unable to borrow a new library book until their previous book has been returned.
