This week in Year 1...

This week, the children have been developing their understanding of one more and one less.

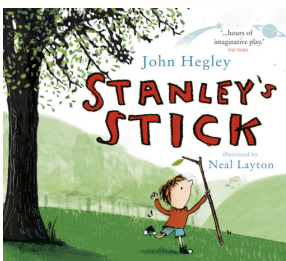

They have practised finding one more and one less from a given number using practical resources and number representations. The children have also explored how one more and one less are opposites, helping them to develop their understanding of number relationships.

In English, the children have been developing their understanding of stories by predicting events and possible outcomes. They have enjoyed predicting different story endings and sequencing the main events in the correct order. The children have also practised retelling a familiar story, using their understanding of the key events to support their speaking and writing skills.

In Art and Design, the children have been exploring lines and shapes in pictures and everyday objects. They have identified basic shapes in works of art and discussed what they like and dislike about different pieces of artwork. The children have also used simple shapes to create their own drawings of faces, developing their confidence in using shapes to represent features.

Next week's book...

Stanley Stick
