## This week in Year 5...

In English this week the children are using modal verbs to make sentences, and building an atmosphere whilst describing a setting. Continuing on with Robot Girl, we will be presenting a bias through writing and using adverbials to write an action scene.

In Maths, the children have been learning how to use mental strategies to work out addition and subtraction calculations by 99, 990, and 9990. Children have also been using their knowledge to break down word problems and understand what exactly the question is asking of them.

In Science, children have been experimenting with evaporation. Children will be working scientifically to plan a fair test with consideration of variables and measurements. Classes will be building on from previous experiments in filtration, mixing, dissolving, as well as their knowledge of the water cycle, to predict how different phases of matter will act.

In Spanish, pupils will be writing a short descriptive text about a person in their close family / friend circle. Pupils will be discussing differences in their family backgrounds in conversation, and will present to the class.

## Next week's book...

5 Curie are reading Harry Potter and the Philosopher's Stone

5 Mandela are reading There's a Boy in the Girl's Bathroom

5 Zephaniah are reading The Wolves of Willoughby Chase

## Key Messages

Please ensure children are reading **every day** and are completing and handing in homework by **Wednesday!**

Please ensure children come to school in **FULL school uniform** with **FULL PE kit** to change into on PE days.
