This week in Year 1...

This week, the children have been developing their understanding of numbers and comparison. They have practised comparing numbers using the language greater than, less than and equal to, alongside the symbols $<$, $>$ and $=$. They have also explored different numbers and quantities and learned how to use a number line to support their counting and understanding of number sequences.

In English, the children have been developing their comprehension and questioning skills. They have practised asking questions and using question marks accurately in their writing. The children have also explored how to make inferences by thinking about what characters say and do, and have made predictions about what might happen next in a story based on what they have read so far. Also, Year 1 visited the train station to explore our book Stanley's Stick. The children enjoyed discovering the sights and sounds of the station and thinking about the exciting adventures

In History, the children have been exploring how they are making history by identifying things that change and things that stay the same over time. They have reflected on their own lives and considered important information about themselves to include in a time capsule. The children have also discussed how they might change in the future and used relevant vocabulary to share their ideas.

Next week's book...

I want my hat back

Key Messages

Reminder:

Autumn Disco:

Please remember to send your child's disco clothes on Thursday, 22 oct.
