This week in Year 6...

In Maths this week, children have been rehearsing past papers to prepare themselves for the SATS taking place this week. Children identified calculations they were still struggling with and teachers talked through the methods to ensure better understanding. Children were given similar calculations to work through to consolidate the learning.

In English this week, students have worked hard on their Spelling, Grammar and Punctuation skills ahead of the SATS as well continuing to develop techniques for answering inference and retrieval questions. Students have now completed their SATS and will continue to develop their skills ahead of their transition to secondary school.

In our foundation subjects this week we investigated the relationship between exercise and heart rate, by describing how exercise affects the heart rate and how it changes during times of exercise and rest. In our DT lesson, the children continued to make their bags using the running stitch, they were also able to add different features. In music, the children looked at different composers linked to the development of opera.

REACH awards

- 6 Plato - Salmana
- 6 Lovelace - Jaswinder
- 6 Mozart - Hamna

Key Messages

Well done to all of Year 6 for completing SATS week!
Learning will continue as normal after this week.
