This week in Year 2...

This week in Maths, the children have been learning about pictograms. They have been creating their own pictograms and learning how to interpret and analyse the information they show. The children have also practiced answering questions using data presented in pictograms and comparing different sets of information.

In Computing, the children have been exploring block coding using MakeCode. They have been learning about pattern recognition by identifying different patterns and using algorithm design to create and sequence instructions to solve problems and complete tasks.

In Art, the children have explored clay working techniques, including scoring and using slip to join pieces of clay together. They have applied the knowledge and skills developed in previous lessons to design and create their own clay tiles.

REACH awards

2 Teresa - Robin for Enthusiasm

2 Pankhurst - Aaliyah for
Enthusiasm

2 Ali - Madeline for Respect

Key Messages

Summer Fair - Friday 19th May - School will finish at 1pm for all day pupils. There will be no afternoon session on this date.
